

1200W HMI Par-Nel

The New Revolutionary CMC HMI PAR-NEL 1200W Incorporate the latest in single-ended HMI PAR technology. The PAR-NEL is a 1200 watt light that is designed to provide maximum light output and minimum power draw with the highest efficiency of punch or bounce. The interaction of lamp, patented reflector system has been computer simulated, resulting in unmatched light performance.

- **Focus from Medium to Super Wide without changing lenses**
- **No need for Lense Set**

(Patent Pending)
