## 24,000W 18,000W & 12,000W Ballast

At 24,000W this is the highest power ballast available in the location lighting market. Although a relatively new flagship in the Power Gems range, there are already many road-tested systems out in the field. Due to the addition of extra cooling this unit is practically the same size as our 18,000W ballast and can operate under the same ambient temperature and line voltage conditions.

### Specification

Max. Lamp Power	24kW	Power Cable	Optional
Power Options	24kW,18kW,12kW	Over Temp Protection	✓
Low Noise Option	✓	Line Over-voltage Trip	>265V
300Hz Output	Optional	Line Under-Voltage Trip	<190V
Input Voltage Range	195-260V AC	Luminaire Socket Options	✓
Input Circuit Breaker	✓	Diagnostic System	✓
Input Apparent Power	25.7/19.4/13.1kVA	Max. Ambient Temp	45°C/113°F
Input Real Power	25.2/19/12.8kW	Width	330mm/13"
Current Draw (@230V)	112A(@24kW)	Height	555mm/21.8"
Power Factor	0.98	Depth	490mm/19.3"
Dimming to 50%	✓	Weight (excl cart)	56kg/124lb
Lamp Running Light	✓	Accessories	DMX, Cart.
